

# RESUME

## SUKUMAR MURUGAN

Email: [sukumar358@gmail.com](mailto:sukumar358@gmail.com)

Phone: +91 7200432796

## CAREER OBJECTIVE

Seeking a varied and challenging Cloud Architect position requiring new and creative applications of technology to solve functional problems.

## AMAZON WEB SERVICES

- ✓ Possess Good Knowledge in Creating and Launching EC2 instances using AMI's of Amazon Linux, RHEL, CentOS, Windows Server.
- ✓ Creating and Managing EBS volumes for storing applications files for use with EC2 instances whenever they are mounted to them.
- ✓ Designing highly available and fault tolerant systems using multiple EC2 instances, Auto Scaling, Elastic Load Balancer.
- ✓ Creating multiple VPC and public, private subnets as per requirement and distributed them as groups into various availability zones of the VPC.
- ✓ Creating VPC Peering for Accessing the Instances between across the different Regions.
- ✓ Creating and Configuring AWS Lambda function with Event Bridge for automate starting and stopping the EC2 instances services.
- ✓ Used Security groups, Internet Gateways and route tables to ensure a secure zone for organization in AWS Public Cloud.
- ✓ Created S3 buckets in the AWS environment to store files, sometimes which are required to serve static content for a web application.
- ✓ Used IAM for creating roles, users, groups and also implemented MFA to provide additional security to AWS account and its resources.
- ✓ Accessing and Using the S3 services from Ec2 instances by Creating an IAM Roles and Policies.

## LINUX ADMIN (RHEL)

- ✓ Installation and configuration RedHat Enterprise Linux in VMware ESXi.
- ✓ Installing and Configuring the Apache, MYSQL and PHP (LAMP).
- ✓ Installing and Managing Packages using YUM.
- ✓ Configuring SMTP using Mailx and postfix.
- ✓ Installing and Configuring NFS on Linux based servers.
- ✓ Configuring Secure File Transfer SFTP using WinSCP.
- ✓ Configuring NTP on Linux server.
- ✓ Recovering Root User forgotten Password Breaking by using Boot Process
- ✓ Creating Logical Volume Manager, Configuring Physical Volume, Volume Group & Logical Volume, Increase and reduces the Volume of the filesystem.

## CERTIFICATION

- ✦ AWS Certified Solutions Architect – Associate.
- ✦ Validation Number: ZENCONKLN2EEQX3R
- ✦ Expiration Date: Jun 20, 2025
- ✦ Verify at: <http://aws.amazon.com/verification>

## AREA OF INTEREST

- Server : Elastic Compute Cloud, Elastic Block Storage
- Storage : Simple Storage Service, Elastic File System
- Network : Virtual Private Cloud, Load Balancer, Auto Scaling

## SKILL SET

- Cloud Providers : Amazon Web Services
- Operating Systems : Windows, Linux, Ubuntu
- Webserver Configurations : IIS, Apache, MySQL, PHP
- Monitoring System : Cloud Watch
- Database Management : DynamoDB, RDS, Redshift
- File Transfer Tools : WinSCP
- Networking : CCNA, IP Troubleshooting
- Software Installations : .exe, .msi, .dmg and yum Package
- System utilities : MS Office, Open office.org, Notepad

## ACADEMIC RECORDS

- ✦ **B.E** - Electrical and Electronics Engineering (2019 - 2022)

## PERSONAL DETAILS

- Father's Name : Mururgan. K
- Passport Number : M1677240
- Languages Known : Tamil, English
- Permanent Address : 2 South Colony, Komarapalayam, Namakkal – 638183

## DECLARATION

I solemnly declare the information mentioned herein is true and correct to the best of my beliefs.

Thanking You

Yours Sincerely,
